CHAIRMAN'S REVIEW

OUTLOOK

While the challenges over the past six months have been many, and while volumes in aggregate have again fallen by 9,7% compared to the same period in 2005, the National Foods group has been able to contain costs and optimise efficiencies in all units and tried to sustain realistic margins where possible. As a result we have recorded the first inflation adjusted profit after tax since December 2004. With the work that has been done, we are confident that we have the capacity and flexibility to meet the challenges that lie ahead and that we will produce favourable results for the year end June 2007.

The economic decline reported in the first half of 2006 continued into the second half of the year despite the best efforts of the authorities. The operating environment was the most hostile we have seen with inflation rising to over 1200%, the availability of goods, services and forex for essential imports being very difficult and with corporates and executive directors in their personal capacities being prosecuted on price control matters.

Our Aspindale facilities have been particularly badly affected by power cuts and this has adversely impacted on the planned production of malt, stockfeeds, cooking oil and roller meal, all of which are in short supply.

Price controls implemented by the authorities have absorbed a lot of our time and energy, and with input prices rising on a daily basis we have been submitting regular price increase applications to the Ministry of Industry and International Trade for approval. Unfortunately, the systems and procedures employed by the authorities are not able to cope timeously with these price reviews causing serious delays in their implementation. In turn, companies are exposed to operating losses, negative cash flow and an erosion of operating capacity. The group has been badly affected over the past six months, firstly in the month of August when a moratorium on price increases was imposed, and secondly in October when the group and its executives were prosecuted for price control violations for which they were ultimately found not guilty and were acquitted.

Shareholders attention is drawn to the cash flow statement where our business is again cash negative on the trading for the six months to 31 December, and our monetary loss amounts to \$10,392 billion.

With inflation accelerating it has become critical for us to change our business model for the company to survive and prosper. Suppliers of our principal raw materials demand cash in advance or against delivery while our principal customers, being the wholesale and retail industry, demand credit. In an environment where the value of money falls rapidly over the period of a month, our margins cannot sustain the losses incurred from the time goods are delivered to the time payment is received. In order to mitigate these losses, the group is moving towards a cash or cash equivalent sales policy. The necessary software has been purchased to facilitate the implementation of the new system, which has gone live from 29 January 2007.

In addition, all aspects of the group's business are being re-evaluated and assessed for profitability. A moratorium on employment has been imposed and no new staff will be employed unless absolutely essential to the operations of the group. Our distribution network has been reassessed and will be streamlined in the third quarter. Production facilities are to be rationalized to improve the efficiency of raw material flows and minimize production costs. This will entail some investment in new plant, but the benefits that will be derived will be significant both in terms of quality and volume.

DIVIDEND

The Board has resolved that no interim dividend will be paid as the group needs to conserve resources, in view of the difficult economic environment.

ACKNOWLEDGEMENT AND DIRECTORATE

May I take this opportunity on behalf of the shareholders and the Board of Directors to thank all management and staff for their hard work and commitment to the company over the past six months.

Todd Moyo CHAIRMAN

27 February 2007

Directors: T Moyo (Chairman), E Beneke, M H Franklin, I H Harris, I F Kind, J Koumides, J Pilgrim, K S Musanhi, J D Vezey, T W Brown (Alternate), A B Wishart.
